SOFTWARE LICENSE AGREEMENT FOR SSI SOFTWARE

The Software includes product activation designed to prevent unauthorized use and copying. This technology may cause your computer to automatically connect to the Internet and may prevent uses of the Software that are not permitted. Do not activate the Software provided under this license agreement ("Agreement"), until you have carefully read this Agreement. By activating the Software, using the activation code provided, you agree to be bound by the terms and conditions of this Agreement. If you do not agree to the terms and conditions of this Agreement, do not activate the Software. The effective date for this Agreement shall be the day you activate the licensed Software. You may have another agreement with SSI that supplements or supersedes all or portions of this Agreement.

Scientific Software International, Inc. ('SSI') grants to licensee the non-exclusive, non-transferable right to download, install, use, or otherwise benefit from the functionality or intellectual property of the copyrighted Software only in accordance with the terms of this Agreement. This license will continue for the specified duration or in perpetuity unless you violate the terms below or destroy all your copies of the Software. You may not sell, rent, or lease this license. The term 'Software' includes all computer code, activation codes and other materials, including any updates and upgrade thereto, that are provided to you under this Agreement.

SCOPE AND DURATION

The scope and duration (time period) of your license depends on the type of license you obtained from SSI, as specified in the accompanying invoice. The various license types are set forth below.

I SINGLE USER LICENSE

A single user license only permits one activation on one computer for one specific end user and is a perpetual license.

II CONCURRENT USER LICENSE

- Multiple concurrent user licenses permit activations on multiple computers for multiple end users. If the number of computers and the number of different end users exceed the number of concurrent user licenses, license metering software is required to restrict the simultaneous access to the Software to the number of concurrent user licenses.

- A fixed number (n) of concurrent user licenses permits activations on n computers for any number of different end users.

- An individual concurrent user license for one specific end user permits the end user activations on multiple computers as long as the specific end user is the only end user of the Software on all the computers involved.

- Concurrent user licenses are perpetual licenses.

III RENTAL LICENSE

A rental license only permits one activation on one computer for one specific end user and expires either 183 days or 365 days after activation.

IV SINGLE 12 MONTH NON-ACADEMIC LICENSE

A single 12 month non-academic license only permits one activation on one computer for one specific end user and expires 365 days after activation.

In no event will SSI be liable to you for any damages, including any lost profits, lost savings, or other incidental or consequential damages arising out of the use of or the inability to make use of the Software, even if SSI has been advised of the possibility of such damages, or for any other claim by any other party.

This Agreement is intended to be the entire agreement between you and SSI with respect to matters contained herein, and supersedes all prior or contemporaneous agreements and negotiations with respect to those matters. No waiver of any breach or default shall constitute a waiver of any subsequent breach or default. If any provision of this Agreement is determined by a court to be unenforceable, you and SSI will deem the provision to be modified to the extent necessary to allow it to be enforced to the extent permitted by law, or if it cannot be modified, the provision will be severed and deleted from this Agreement, and the remainder of the Agreement will continue in effect.
